

THE OECD CHAMPION MAYORS FOR INCLUSIVE GROWTH INITIATIVE

INCLUSIVE GROWTH AT THE OECD

As a response to the growing gap between the rich and the poor, the OECD launched the Inclusive Growth Initiative in 2012, with support from the Ford Foundation. This initiative has been helping governments analyse rising inequalities, monitor material living standards and broader well-being, and design policy packages that promote equity and growth. It is driven by a multidimensional approach to Inclusive Growth, going beyond income to see how people are faring in other areas of life, like jobs and health.

THE CHAMPION MAYORS FOR INCLUSIVE GROWTH INITIATIVE

Building on this foundation, the OECD launched the Champion Mayors for Inclusive Growth Initiative in March 2016, with support from the Ford Foundation and in partnership with a range of Supporting Institutions, including the Brookings Institution, C40 Cities Climate Leadership Group, Cities Alliance, ICLEI, Lincoln Institute of Land Policy, National League of Cities, UCLG and United Way Worldwide. The initiative aims to provide mayors with a unique platform in the debate on inequality, elevating their voices in national debates and global agendas; and to facilitate exchanges among city leaders, sharing concrete solutions to address inequality.

A GLOBAL COALITION OF LOCAL LEADERS TO FIGHT INEQUALITIES

Champion Mayors for Inclusive Growth form a coalition of willing leaders who have committed to tackling inequalities and promoting more inclusive economic growth in cities.

Champion Mayors are invited to:

- Voice their support for reducing inequalities in their cities, within their countries and worldwide;
- Exchange best practices and policy tools for more inclusive cities through technical dialogues and the new OECD online platform for Inclusive Growth across different policy domains, such as housing, transport, education, economic and workforce development, among others;
- Attend annual events and regional meetings of the Champion Mayors, as feasible; and
- Support key outputs of Champion Mayors, such as the New York Proposal for Inclusive Growth in Cities, the Paris Action Plan for Inclusive Growth in Cities, and the Seoul Implementation Agenda.

The work of Champion Mayors will inform the OECD's recommendations on Inclusive Growth, which will be presented to governments of OECD member countries, in addition to Key Partners and member countries of the Development Centre.
